How does the search results work? +

What is 'area of specialty' and why is it useful? +

Scroll down for answers to the above

What are the benefits of using Uconnect? —

We allow Job Seekers and Employers to connect very effectively. There are many ways to reach out to an employer that suits your needs and specializes in your area of specialty. All of this is available at your fingertips and on the go.

Can I include open jobs in my description? —

Absolutely! You can include what you believe will attract people to reach out to you in search for their next role. Make it count!

Can I create an Employer and a Job Seeker profile? —

Of course, you can! Employer and Job Seeker profiles are treated separately with no relation between the two. Be sure to keep your profiles up to date and active as you never know what is around the corner.

My job title doesn't appear in the drop-down list? —

If your job title doesn't appear in our list, please contact one of our friendly staff members. We will ensure your job title is included, so you can update your profile. An updated profile will give you the best chance of finding your potential future role.

What do I do if someone has left an offensive rating? —

If someone has left an offensive rating against your profile, please contact one of our friendly staff so we can investigate the situation further. We can remove ratings should they not meet our guidelines. See our Terms & Conditions.

Can I see who has viewed my profile? —

Absolutely! You will be notified every time a Job Seeker views your profile! Be sure to save profiles to your favourites list to never lose track!

How does the search results work? —

By default, the profiles readily available to view are based on location. This is to prevent irrelevant results showing. If you want to search for specific results, use our filter located to the top right of screen. Same applies for our MAP screen.

What is 'area of specialty' and why is it useful?

—

This will ensure that the right Job Seekers are connecting with you, so you can help them find their next role. We are all about making hiring as easy as possible.
